

Key Features

- Supports BlackBerry® push email, calendar, and contact synchronization.
- Supports “ActiveSync for MDAemon,” providing email, calendar, and contact synchronization between MDAemon and an ActiveSync® capable device.
- One simple console makes it easy to manage email and BlackBerry® smartphone functionality.
- Mobility enabled to support other smartphone devices (Windows Mobile®, Palm®, Symbian®, or Apple®) via an ActiveSync plug-in.
- Flexible design using IMAP, POP, SMTP, and DomainPOP services. Does not require a Server Operating System.
- Trusted security using DKIM, SenderID for authentication and verification, anti-spam engine, Bayesian learning, SSL/TLS, backscatter protection, and an additional proactive malware prevention layer (via SecurityPlus plug-in).
- Custom scheduling and mail queuing for more flexible outbound mail management.
- Groupware enabled (mail, calendar, contacts, tasks, notes, and journals).
- Closed Instant Messaging application.
- Simplified archiving and rapid failure recovery.
- Multiple domain support and integrated web administration.

Email, Groupware, IM, and Mobile Device Compatibility Designed for SMBs

The MDAemon® Messaging Server has been deployed in over 90 countries around the world to meet the needs of small-to-medium businesses that require a reliable and secure on-premise mail server without expensive administration or high per-user costs. It simplifies messaging and collaboration requirements with an intuitive, user-friendly design offering enterprise-class features that can be managed with minimal training and support. The Windows-based mail server requires almost no maintenance and offers the flexibility of remote administration to make email management simple.

MDAemon supports BlackBerry® push email, offers seamless email management, and includes unique features like Inbox Mapping and controls for BlackBerry composed emails to comply with a company’s security policies.

MDAemon also supports other smartphone platforms to help meet the needs of IT administrators who manage the mobility needs of the business.

Key Benefits

- **Highly Secure.** Incorporates multiple layers of security techniques such as Relay Controls, IP Shielding, SMTP Authentication, and reverse lookups, to minimize possible server exploits.
- **Collaboration.** mail, calendar, contacts, tasks, notes, and journal. Supports Microsoft® Outlook® (via the Outlook Connector for MDAemon plug-in).
- **Easy Administration and Maintenance.** Intuitive, tasked-based GUI, easy account database integration (via Active Directory, LDAP, ODBC, or MDAemon's Minger verification), plus simple back-up and restore.
- **Remote Access.** Access email from almost anywhere using the integrated webmail client or perform remote account management from the administrative application.
- **Integrated Messaging Client.** Provides email and calendar notification within the Instant Messaging applet for complete and flexible inter-office communications.
- **Powerful Mail List Engine.** Create and manage bulletins, discussions, and distribution lists easily to effectively communicate on multiple levels.

System Requirements

- Microsoft Windows XP/2003/ Vista/2008/7® (including 64-bit versions)
- Pentium® 3 800 MHz processor or higher (dual core processor recommended)
- 512 MB of memory (1 GB recommended)
- Typical Hard disk space required: 200MB, plus additional space for stored mail
- Network Interface Card (NIC) with TCP/IP network protocol installed
- Internet or Intranet communication capabilities

Certain features outlined in this document may require activation of a BlackBerry smartphone with a data plan. Check with your service provider for availability, costs and restrictions.
